

LIGHTBARS

Freedom[®] IV Series

WHELEN[®]

The biggest, brightest, most durable lightbar, the Freedom[®] IV is double stacked with two rows of advanced Linear Super-LED[®] lights, resulting in twice as much light output. Advance Thermal Design reduces the stress on LEDs, meaning it's ideal for long hours of use. Designed without moving parts or motors and a low current draw to provide heavy duty, long-life dependability.

Standard Lengths

44" (1118mm), 50" (1270mm),
55" (1397mm), 60" (1524mm),
72" (1829mm), 81" (2057mm),
92" (2337mm)

Key Features

- Linear Super-LED[®] technology
- Advanced Thermal Design improves LED performance during use
- Aluminium tops and extruded aluminium platform maximise protection
- Centre dividers with liquid injection moulded seals protect internal components from water
- Hard-coated domes minimise environmental damage
- Clear, smoked or coloured domes
- WeCan[®] and WeCanX[™] enabled
- Colour filters available for individual lighthoods
- Fully customisable - a choice of lighthoods, alleys, take-downs and more
- R65 configurations available
