

LIGHTBARS

Tracer™ Series

WHELEN

Engineered to increase vehicle visibility, the Tracer utilises Whelen's Super-LED technology to provide high intensity warning and illumination. Sleek vehicle specific mounting brackets conform to vehicle rocker panels and the universal mounting bracket kit will mount a Tracer to a variety of applications. The durable clamshell design allows for easy reconfiguration and serviceability. Tracer is now enhanced with Traffic Advisor™ capabilities in 4-6 lamp versions and an all new external control module for ease of installation.
