

TELEMATICS

T10 Micro

WHELEN

Trakm8 is a technology leader in fleet management, going beyond vehicle tracking to provide fleets with a customisable business intelligence platform. Our unique, integrated telematics solutions provide quick and easy access to detailed driving data such as vehicle location, safety and efficiency analysis, and vehicle health updates.

Manufactured in the UK, the T10 Micro is designed to provide a self-fit platform for fleet and commercial management. It's one of the smallest telematics devices available on the market connecting via Bluetooth and GPRS connectivity with all functions fully enclosed.
