

MINI LED Balloon Light

100 W 200 W

Our MINI LED Balloon Lights emit bright, diffused light that is suitable for indoor spaces and outdoor events. Released in 100 W and 200 W versions, they can be used to light up film sets, provide even lighting for studio photography and interior construction, and general portable lighting for outdoor activities like camping, sporting events and parties. They come with a sturdy carry bag or an optional balloon light crate that is stackable, prevents rolling when transporting and with customizable interior partitioning.
