

# TINY LED Balloon Light

50 W RGBW AC / DC

Our 50 W TINY LED Balloon Lights are the most compact and portable in our collection and available in white or RGBW, and AC or DC. While these family friendly lights aren't as powerful as their bigger cousins, they emit more than enough for everyday activities. And since they are dimmable, you can always set them to just the right brightness, whether you're cooking, reading, dining or just enjoying the great outdoors.

## DIMENSIONS
