

RECHARGABLE AMBER BEACON

VOLTIC

PRODUCT OPTIONS

Voltic Rechargeable Amber Beacon

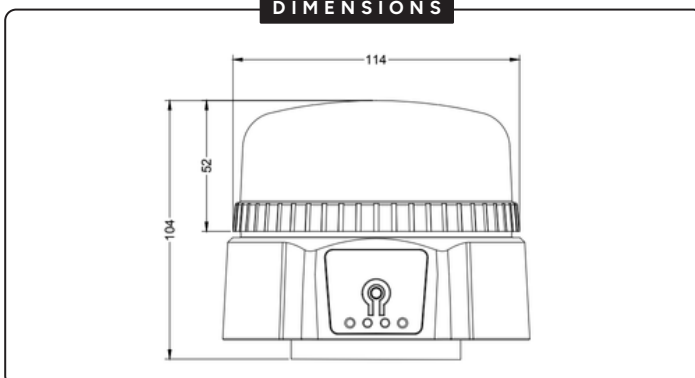

SS-VOL-A

The Voltic is a rechargeable amber beacon an ideal solution where flexibility or occasional use is required. Powered by a lithium battery charged by USB-C - no wiring is required, ideal for applications where a fixed installation isn't practical or necessary. The strong magnetic base makes it easy to attach and remove, allowing you to quickly transfer it between vehicles or store it when not in use.

Offering up to 8 hours runtime, the Voltic provides reliable, high-visibility performance thanks to its 36 high-power LEDs. Whether you're operating on a temporary site, using unmarked or fleet vehicles, or simply need a convenient backup option, the Voltic brings practical visibility in a self-contained unit that's built for tough environments.

DIMENSIONS

Product Features

- Rechargeable lithium battery with up to 8 hours runtime
